Louisiana Housing Corporation
Fiscal Year 2018 Operating Budget Analysis
June 14, 2017

As of this date, the corporation is projecting net operating receipts of approximately \$184 thousand for the fiscal year ending June 30, 2018. Operating receipts are projected to come in at approximately \$16.921 million, while operating expenditures are projected to come in at approximately \$16.737 million. Both categories increased from prior year budgeted amounts primarily due to the addition of programs related to the Great Floods of 2016. The corporation is requesting approval of the fiscal year 2018 operating budget via accompanying resolution at the June 14, 2017 board meeting. If, after periodic analysis during fiscal year 2018, the corporation sees the need for recommending budget amendments, those would be requested of the board at the appropriate time. Projected results from operations for the fiscal year ending June 30, 2017, remain at the levels reported earlier this month, with net receipts of approximately \$1 million.

FY18 Projected Operating Receipts

- **Sustainable Housing Programs Fees (OCD)** – are projected based upon allowable expenses incurred, which factors in increased receipts from increased activity as a result of administering programs related to the Great Floods of 2016
- **Energy Programs Fees (LIHEAP & WAP)** – projected based upon current grant administrative revenue availability in conjunction with associated costs for running the program
- **HOME & Nat'l Hsg Trust Fund Fees** - projected based upon grant administrative revenue availability in conjunction with associated costs for running the program
- **HUD Disposition Property Receipts** – based upon projections from property manager, Latter and Blum, for results from operations of Village de Jardin and Willowbrook
- **LA Housing Authority Fees** - projected primarily based upon allowable expenses incurred, along with consideration of available grant funds for operations
- **Compliance Monitoring Fees** – projected using current billing rates and projected activity
- **Multi-Family LIHTC, M2M & Risk Sharing Fees** – projected based upon activity for funding rounds and ongoing programs
- **Multi-Family Issuer & MRB Fees** – projected based upon current level of activity
- **Section 8 Contract Administration Fees** – based upon 9 months of operating the program
- **Single Family Homebuyer/Counseling Program Fees** – projected based upon volume
- **Single Family Issuer Fees/Bond Deal Receipts** - projected based upon expected activity for the year
- **Miscellaneous Income – Rental** - projected based upon current level of activity

FY18 Projected Operating Expenditures

- **Human Resources** – Full Time Equivalent (FTE) count is currently projected at 139 for the fiscal year, incorporating increased program activity, primarily as a result of the Great Floods of 2016; the majority of new-hires are expected to be job appointments, which provides for fluctuation in staffing if funding fluctuates; FTEs budgeted for FY2017 were 110
- **Operating Services, Building Expenses, Travel & Training, Supplies, Professional Services, Legal, and Capital Expenditures** – currently projected based upon anticipated activity
- **Auditing** – efficiencies will be gained from the LLA combining contracts for LHC's audits; 3-year contracts were awarded this month by the LLA
