Re: Timeline for LIHTC Allocation Round

Dear Mr. Airhart and Mr. Hutchinson:

The Greater New Orleans Housing Alliance (GNOHA) has spent the past few months advocating for changes to the Qualified Allocation Plan.(QAP) One of the primary concerns is the establishment of a consistent annual schedule for the allocation of Low Income Housing Tax Credits. (LIHTC) Currently, there is no published schedule and the affordable housing community is unsure as to when or if the Louisiana Housing Corporation (LHC) will have a LIHTC funding cycle this year. Planning is a key factor in the development of affordable housing and this uncertainty is counterproductive and can lead to a haphazard approach to development.

GNOHA encourages the LHC to establish a LIHTC allocation round in 2013 since there are still many families and individuals who would benefit from additional affordable housing in the state of Louisiana. As affordable housing developers, our members understand the need for revisions to the existing QAP. These revisions should be based on need and create a fair distribution of this valuable resource. GNOHA and its allies have already met with LHC staffers to offer our assistance on improving the QAP and we any significant changes will probably not happen for a QAP released in 2013. However, our members strongly urge the commissioners to recognize that sustainable, affordable housing statewide relies on predictable funding cycles that consistently support our

efforts. As a result, we are asking that the LHC immediately publish a time-line and related data for a LIHTC funding cycle during 2013.

We are available to meet with you to discuss this matter further. Please contact me at 504-915-4905 or amorris@providencech.org with any questions or comments.

Sincerely,
