Re: Energy Assistance Program Committee

There will be an Energy Assistance Program Committee meeting, Wednesday, June 9, 2010 at 9:30 a.m. at Louisiana Housing Finance Agency, Committee Room 1, located at 2415 Quail Drive, Baton Rouge, LA.

The following topics will be discussed:

- Energy Programs Activity Summary
- LACAP Louisiana WAP Max Report

If you have any questions or concerns, please contact me.

May 28, 2010

ENERGY ASSISTANCE COMMITTEE MEETING

Notice is hereby given of a regular meeting of the Energy Assistance Committee to be held on Wednesday, **June 9, 2010 at 9:30 AM**, Louisiana Housing Finance Agency, **Committee Room 1**, 2415 Quail Drive, Baton Rouge, LA by order of the Chairman.

AGENDA

1. Call to order, roll call, and introduction of guests.
2. Approval of minutes from the May 12, 2010 Committee Meeting.
3. Energy Programs **Activity Summary**.
4. **LACAP** Monthly Report for Louisiana **WAP Max**.
5. Other Business.
6. Adjournment.

Milton J. Bailey, LHFA President

**If you require special services or accommodations, please contact Barry E. Brooks
(225) 763-8773 or via email bbrooks@lhfa.state.la.us**

Pursuant to the provisions of LSA-R.S. 42:6.1, upon two-thirds vote of the members present, the Board of Commissioners of the Louisiana Housing Finance Agency may choose to enter Executive Session, and by this notice, the Agency reserves its right to go into Executive Session as provided by law.

Jatis Harrington
James Droddy
Darleen Okammor
Loretta Wallace
Keith Cunningham
Mary Brooks Garriet
Carolyn McQuairter
Angela King

Others Present

See attached sign-in sheet

Commissioner Katie Anderson called the meeting to order at 9:35 a.m. The roll was called and the introduction of guests and staff followed. The minutes of the April 14, 2010 meeting were approved on a motion by Commissioner Foster, and seconded by Commissioner Young.

Updates: Darleen Okammor, Energy Assistance Program Manager, briefly mentioned the narrative which was included in the Commissioners' Board Materials that summarized the recent activities regarding both programs. On the Recovery website, it is reported that the Weatherization Assistance Program ranked 9th out of approximately 200 federal programs in the number of direct jobs created or retained for the quarter ending March 31, 2010.

During the week of April 26, 2010, Katherine Foote of the Department of Energy conducted a monitoring review of the Weatherization Program. On Monday, April 26, 2010, a conference

call was held with Bob Adams and the Department of Energy Headquarters personnel. The Department of Energy's management is planning to conduct a series of preparedness visits, calls and letters that have been labeled "Operation Green Light." The intent of the call was to give states and their sub-grantees the opportunity to talk to the Department of Energy Headquarters regarding any current questions or issues that may need their assistance. It was mentioned that Louisiana has completed 17%, which is 871 of the 5,136 units projected for ARRA. The production level was ranked average in comparison to the rest of the nation. Mr. Adams briefly discussed the monthly "fair share" target of the 30,000 units established by the Department of Energy for the nation. It was determined that Louisiana would complete approximately 260 units each month. Although this is an important goal of the Administration, it was also realized that Louisiana is meeting the targets approved by the Department of Energy. The personnel also offered encouragement to increase production during the peak period. They also mentioned we should be watching out for the Home Star Rebate Program, which is being funded by the Department of Energy.

On April 29, 2010, LHFA staff also participated in a conference call with the Department of Energy's contracting office. Currently, the Weatherization Assistance Program will also undergo a financial evaluation conducted by the National Energy Technology Laboratory (NETL), which is the contracting office for the Department of Energy.

Also, Ms. Okammor briefly discussed some of the program statistics regarding the LIHEAP Program. This included the total percentage of expenditures of 47%, resulting in 27.2% of new households being assisted. Currently, we have about \$5,000,000 million dollars to be contracted; this is under discussion with Jon Phelps of LACAP.

The Regular Weatherization Program has stepped up its production of units. We are now at 371 units as of April 31, 2010, the projection was 346. This will result in a reduction of funds and avoid a carryover of funds into next program year. We are and will continue to implement a special initiative with our leveraging funds. There was \$101,936 dollars available. Those funds have assisted 36 households to avoid disconnects, clear arrearages, and protect their household Energy accounts.

This concluded Ms. Okammor's report.

LACAP Monthly Report: Jon Phelps, Energy Director read through the monthly report for May 2010, which was included in the Committee's binders. He briefly went over each expectation and the results of any failures to produce as it would reflect that agency. He also briefly went over the graph of the agencies production for the months. This included expectation #14, which went over the various types of training provided and an inventory of items.

The Shaw Group: Keith Boeneke, Project Manager gave a brief summary report of activities. The state-wide production is at 108%, 928 units have been completed and 856 were contracted through the end of April. Regarding Davis-Bacon Compliance Monitoring there is nothing new to report; just a slightly increase in submittals. We are currently in the field conducting home

visits and while we are on site monitoring, we have begun interviewing crews on site. The home inspection monitoring of the first quarter of 2010 home visits were completed in April we have visited each agency twice. The second quarter of 2010 commenced in May with 55 homes inspected that represented 6% state wide. The physical monitoring has resulted in four on-site annual monitoring events with two more scheduled to be completed in May and one to each agency by the end of September. The first quarter of 2010 desktop event has been completed and the reports will be distributed to the agencies at the conference on tomorrow. The ARRA reporting second round of ARRA data was given to LHFA on last month and monthly metric data will be given to LHFA no later than May 17, 2010. This concluded the report.

Commissioner Anderson introduced for discussion the Resolution for East Baton Rouge Parish and the Action Plan for the ARRA WAP Max Program, which was presented to the Committee by LACAP. She advised that it is a continuation of last month committee meeting, but it now includes an update with recommendation. This being a failure to perform under the legal contract we have with LACAP and LACAP with their sub-grantees. LACAP has proposed to not take any official position at this point except on a temporary basis or unless needed. After reviewing the HES reports through the month of April, the production shows that they have fulfilled their target goal as presented at last month's meeting. Since, it also appears that they are meeting their conditions and goals it was recommended to the Committee that they accept the plan that LACAP has submitted for East Baton Rouge Parish.

Attorney Cunningham stated that the resolution being generic in its drafting to provide for the Agency to accept a plan and its redraft to accept a redistribution plan as exhibit A in which there being no exhibit A. There being no redistribution taken at this time would render the Resolution mute.

Commissioner Foster then motioned to accept the Action Plan of the ARRA WAP Max Program as presented for East Baton Rouge Parish Office of Community Development, which was seconded by Commissioner Young.

Commissioner Foster requested that the record indicate that the action taken renders the Resolution mute.

Update on LACAP Audit: Renee Landry, CFO gave a brief update on the status and various events that have hindered the completion of the audit report.

Commissioner Anderson opened the floor to entertain questions and/or comments. There being no other business to discuss, Commissioner Anderson adjourned the meeting at 10:03 a.m.

ENERGY PROGRAMS STATUS REPORT

TO: Board Energy Assistance Program Committee

FROM: Darleen Okammor, Program Manager

DATE: June 9, 2010

RE: Low Income Home Energy Assistance Program (LIHEAP)
Weatherization Assistance Program (WAP)

Weatherization Assistance Program (WAP)

On May 27, 2010, a statement was released by the White House Press Secretary on the Senate Introduction of the Home Star legislation. Earlier this month, this legislation passed the House with a bipartisan vote of 246-161. The bill has been reintroduced to the Senate for review and final passage.

The Home Star program described in the bill will provide temporary rebates for energy-efficient improvements in residential buildings. The initiative establishes a \$6 billion rebate program directed at middle and upper income homeowners to encourage immediate investments in energy-efficient appliances, building mechanical systems, insulation, and whole-house energy efficiency retrofits. The maximum amount of rebates provided for a home is set at \$3,000 or 50 percent of the total cost of the installed measures –whichever is less. The intent of the bill is to create jobs in both construction and manufacturing, while saving families money on their utility bills. The full text of the legislation is available by searching, Thomas (The Library of Congress): <http://thomas.loc.gov/> for Bill # S.3177, Titled: Home Star Energy Retrofit Act of 2010.

Low Income Home Energy Assistance Program (LIHEAP)

There is not anything new to report for LIHEAP, since the last meeting.

Program Budget and Statistical Report:

Low Income Home Energy Assistance Program

Grantor: Department of Health and Human Services (DHHS) \$51,945,162

(DHHS) \$12,967,605 (DHHS)2nd Allocation \$38,977,557

Type of Assistance (October 1, 2009- September 30, 2010)	Total Expenditures	Number of Households Assisted	Households with at least one member who is:			Denied	Number of New Clients
			60 Years or Older	Disabled	Age 5 or Under		
Heating (October – March)	\$24,620,342.40	56,410	20,744	23,725	10,898	341	13,935
Cooling (April - September)

MONTHLY REPORT TO
LOUISIANA HOUSING FINANCE AGENCY (LHFA)
FROM
LOUISIANA ASSOCIATION OF COMMUNITY ACTION PARTNERSHIPS (LACAP)
IN ACCORDANCE WITH CONTRACT FOR PROFESSIONAL SERVICES
FOR THE ARRA WAP MAX
ADMINISTRATION REQUIREMENTS: EXPECTATION NUMBER 19
June, 2010

Expectation Number 19: In accordance with the provisions of the contract under Article 4, Statement of Work, Expectation Number 19 which states that “Contractor shall present an in-person monthly overview of the progress of the administration and production of the Louisiana WAP MAX Plan to the Energy Assistance Committee of the Board of Commissioners each month. We have submitted the written report to LHFA on May 26, 2010.

Monthly Desk Reviews

Expectation Number 5: Contractor shall conduct monthly desk reviews of the Subgrantees using information in the HES database and reports, as requested by Contractor, of Subgrantees. Protocol for monitoring must be agreed upon by LHFA and Contractor. LACAP conducted a desk review for the month of April, 2010, for all Subgrantees.

One Month Failure to Produce

Expectation Number 6: For the month of April, 2010, there was one agency that fell into this category, Terrebonne. A letter was sent to the agency and a response was received by LACAP from Terrebonne Parish. They were 2 units short.

Two Month Failure to Produce

Expectation Number 7: For the month of April, 2010, no agency fell into this category.

Four Month Failure to Produce or Failure to Meet 90% by Month 5

Expectation Number 8: For the month of April, 2010, there was one agency that fell into the failure to produce 90% of production goals: East Baton Rouge Parish. East Baton Rouge Parish met their goal for the single month of April; however, they remain short of 90% production.

See attached table for Subgrantee ARRA Production.

Expectation Number 14: In accordance with the provisions of the contract under Article 4, Statement of Work, Expectation Number 3 which states that “Contractor shall fully execute the training and technical assistance activities included in the state plan.... Contractor shall document all training by subgrantee, by individual trained, by training course and by certificate/ diploma. Contractor shall seek to maintain 60% attendance rates for the classes submitted in the submitted training schedule...”

<u>COURSE:</u>	<u>DATE:</u>	<u>HOURS:</u>	<u>TRAINEES/ CERTIFICATIONS:</u>	<u>COURSE DESCRIPTION:</u>
Basic Weatherization	April 6-8	24	7/7	Comprehensive introduction to the principles of energy and the whole-house approach, as well as their application to weatherization services in Louisiana.
Mobile Homes	April 13-15	24	8/8	Teaches hands-on how to assess the weatherization needs of typical mobile homes and address those needs using the right tools and measures, taking into consideration priorities and cost.

EPA	April 6 April 7 April 20	8	5/5 9/9 15/15	Upon completion of this course, participants will be able to perform Weatherization in a manner that minimizes creation and dispersal of lead contaminated dust and protects residents, especially children, from possible lead exposure.
Auditor/Assessor	April 22-23	16	12/12	Covers how to evaluate the energy performance, comfort, safety and structural integrity of homes being audited.
Insulation	April 27-29	24	9/9	This course covers the wide range of insulation forms, applications, and considerations in weatherization work in Louisiana.

Expectation Number 18: Contractor shall provide a monthly inventory list of all vehicles, tools and equipment purchased with ARRA funds (10 CFR 440.18, WPN 09-1B) Contractor shall obtain all prior approvals as necessary for equipment purchases in compliance with DOE and State rules and regulations. Also see attached.

Submitted By: Jon Phelps, Energy Director, LACAP
